

Capabilities Statement

Code360 Inc. is a digital IT services company supporting federal agencies, state and local governments, and commercial sector clients. We specialize in Health IT, Data Analytics, IT Governance, Advanced Statistics, AI/ML, Solution Architecture, Cloud Engineering, Software Modernization, and Business Intelligence. As an SBA-certified 8(a) and HUBZone minority-owned small business, we are committed to delivering innovative, cutting-edge IT solutions that drive impact and transformation across the public sector.

“Better Life, Better Health through Better use of Technologies”

Relevant Experience That Delivers Results

Administrative & Program Support

Project management, stakeholder engagement, and governance support at CDC, CMS, and UF for IT systems, healthcare data collection, and research initiatives.

Technical Support & IT Solutions

Cloud migration, data analytics, and FHIR® interoperability solutions for CMS, CDC, and QIO, ensuring compliance, security, and streamlined operations.

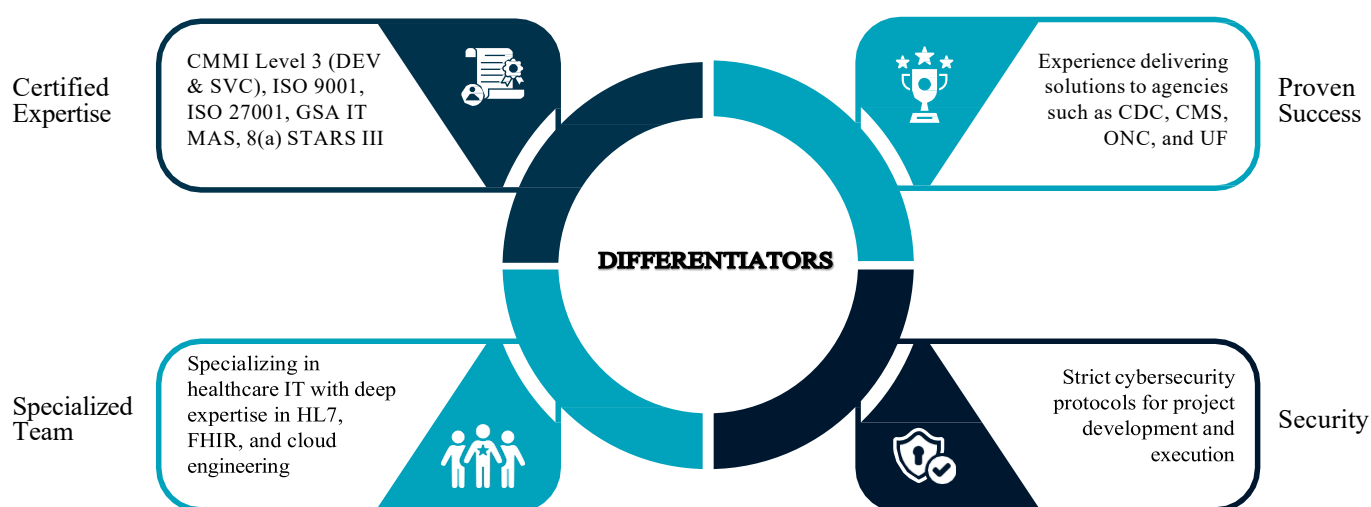

Business Intelligence & Automation

Development of data visualization dashboards, SQL-based data marts, and automated workflows to improve decision-making for healthcare agencies.
